1. The KARLOVY VARY (N 51/P 69) airfield was located about two miles south-southeast of the town, immediately southwest of OLSOVA VRATA. Three hangars were located at its eastern border, and a three-story building of the civil aviation at its northern edge. The landing field had a N-S concrete runway about 2,000-feet long.
2. A single-engine high-wing monoplane with red engine was parked at the airfield on 11 September 1949. Twin-engine DC-3 commercial planes made flights between 11 and 13 September 1949. The field was not occupied by an air unit.

25X1

Comment: It has been known that the KARLOVY VARY airfield has been used by Czechoslovakian commercial aircraft. The field is apparently not occupied by an air unit.
